LONDON, Dec. 9, 1876.
Fresh on the heels of Cesnola's wonderful discoveries of treasure at Kunum come an announcement from Dr. Henri Schliemann, whose great success on the site of ancient Troy was first communicated to the Heraid three years ago.

This enthusiastic archæologist has been at work upon the site of the ancient city of Mycenæ in the Peloponnesus, and his work has been crowned with the most ties in Bulgaria would, in the event of a complete success. The Doctor has tele-graphed to the Herald bureau a copy of the light of a Moslem crusade turned inthe despatch in which he announced the to a Christian advance; but, though the

DR. HENRI SCHLIEMANN. Mycenie, November 28, 1879.

IMPORTANCE OF THE DISCOVERIES. The highest scientific authorities in London declare Dr. Schliemann's discoveries to be the most important yet made in the history of archæological investiga-tion. They go back to the Cyclopean era in architecture and to the time of the destruction of Troy or to the Greece of almost 3,000 years ago, when it was the first city of Hellenes. NOT A MYTH.

Mycenæ, the town of which Dr. Schlie-mann speaks in this letter, is one of the most ancient in the world. Long before the Greeks joined together to avenge the this city was a great centre of government and civilization. Homer calls it "populous" and "broad-streeted," and it accessions to Russian power and territoment and civilization. Homer calls it was its King Agamemnon—the "King of rial limits. England is much more vulmen"—who was chosen to command the ner-ble now than she was twenty years Grecian forces at Troy. Dr. Schliemann, in digging up these relics and expusing to view the tombs of these heroes of longdeparted ages, carries us back far beyond historic times, and to a great extent overturns the theories of several modern writfirmed by the discovery of their tombs in positions which tend to prove the truth of the legend.

Disaster to the English ration many.

Æschylus in his "Agamemnon," Sophocles in his "Electra," and Euripides in his "Orestes" have each in turn drama tized various phases of this remarkable story. The legend, or, as we may now term it, history, relates how Agamemnon, on his return from the siege of Troy, was foully murdered in his own banqueting hall, and how his wife and paramour, who had murdered him, afterwards in-

On his arrival there he found that his cousin Ægisthus, whom he had left as the guardian of his kingdom and of him, and took the opportunity of a ban-quet given to celebrate his safe arrival. It is related that as he came from the bath Clytemnestra gave him a tunic with the sleeves sewn up, and as he vainly attempted to put it on she felled him with blows of a hatchet, while her lover, Ægisthus, assisted. At the same time several of his companions perished, and among them Cassandra, who had warned him of his fate.
